

WE ARE HIRING

Atlantic Engineering Services (AES) is seeking a full-time Structural Designer to join our growing team in Jacksonville, FL. With additional offices along the East Coast, AES is an award-winning full service structural engineering firm with over 30 years of experience. Our exceptional team of professionals are passionate about serving our clients, providing engineering expertise to the architectural design and construction communities. Providing consulting services to a wide array of industries across the east coast, professionals at the firm craft structures in which people live, learn, play, heal, worship, and more. As a Structural Designer at AES, you will work in concert with our senior engineers and architectural clients to provide technical support for a wide variety of project types for both public and private industry sectors. Not only will you be expected to deliver proficient structural designs, but you will be positioned to learn from those more experienced at AES so you can practice your design skills and build upon your path to a licensed structural engineer.

RESPONSIBILITIES

- Primary responsibility is to provide technical support for project engineers, project managers, and other senior design personnel at AES for a variety of projects, including mixed-use, medical, multifamily, commercial, athletic, federal, parking, and other project types. Some minor coordination with other design team members may be required.
- Technically support projects around the United States, mainly focusing on the East Coast
- Perform structural engineering calculations
- Evaluate and comprehend project plans and design criteria associated with a wide array of project types
- Assist in the development of plans, details, and specifications for projects
- Successfully apply fundamentals of engineering processes within assigned projects
- Convey design intent clearly and concisely through engineering drawings and specifications
- Proficiently operate in a hybrid office environment and be able to balance expectations regardless of location

QUALIFICATIONS

- BS in Architectural Engineering, Civil Engineering, or equivalent program
- Proficiency in Microsoft Office (Word, Excel, etc.)
- Ability to work in a team environment
- Good understanding of basic engineering principles and ability to apply them to daily tasks
- Willingness to learn and apply new skills
- Strong oral and written communication skills

BENEFITS

- Competitive compensation package that includes holiday and paid time off
- Employer assistance in purchasing company health and vision insurances
- Employer-paid long term disability insurance
- Employer-paid life insurance
- Voluntary Aflac dental and supplemental insurance policies
- Participation in self-directed 401K plan with matching

PERKS

- Hands-on training and support
- Advancement opportunities
- Financial advisement services for investments and retirement options
- Company trips and events
- Community outreach opportunities

If interested, please send resume to j.kostage@aespj.com.
